INSTRUCTION SHEET

PISTOLS WITH NARROW DIAMETER BARRELS

⚠ WARNING

As this firearm has a narrow diameter barrel a muzzle-indexing piston or mount must be used. Failure to do so may result in damage to your silencer. Please contact the manufacturer of your silencer/suppressor or Tornado for more information.

The following is a partial list of manufacturer muzzle indexing pistons. Please check with your manufacturer for compatibility with your model:

AAC - All 1/2-28 pistons are muzzle indexing.

CDS - 1/2-28 pistons are muzzle indexing. (except Kraken - but new piston will fit.)

Dead Air - All 1/2-28 pistons are muzzle indexing.

Gemtech - No muzzle indexing pistons (as of 12/16/20)

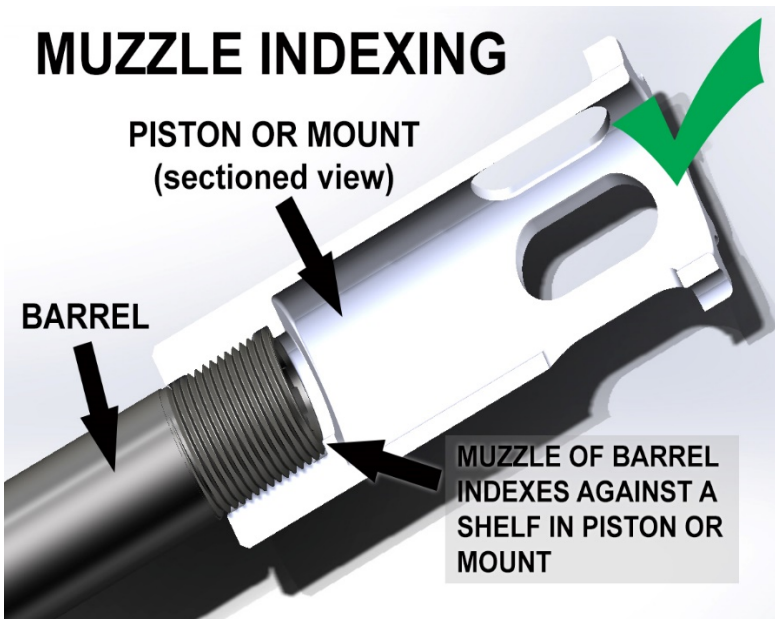

Griffin Armament - Piston, GAR1228S 1/2-28 Special

Rugged - 1/2-28 pistons are muzzle indexing.

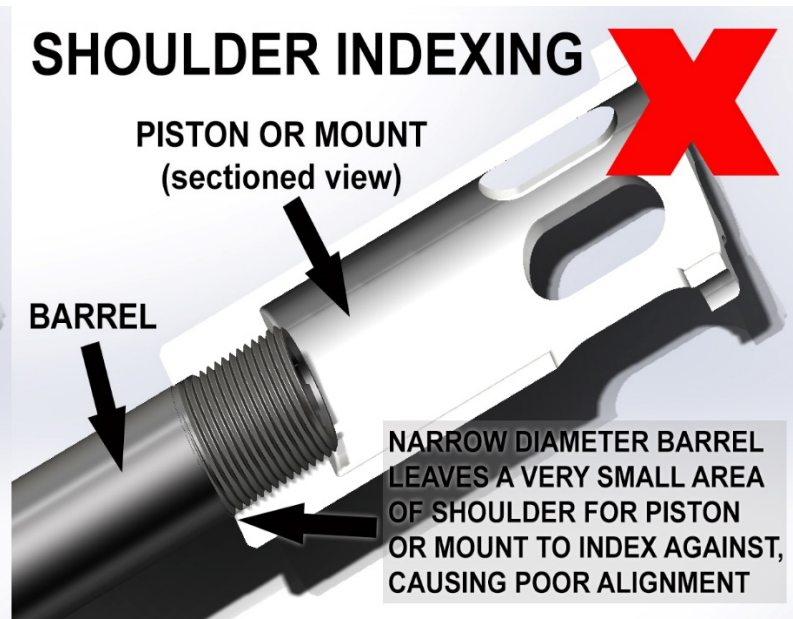

SIG - 1/2-28 pistons are muzzle indexing.

SilencerCo - Piston, #AC1756
